## Scheme to Make Lew Payne Directer-General of the Fair.

[APRCIAL TO THE EVENING WORLD.]
ALBANY, Jan. 29.—After half an hour of wrangling over the course the World's Fair bill should take, the Senate finally decided to take up the report of the Committee, which included the amendment sent up here by Mr. Platt.

The Democratic minority of the Committee sent up a report protesting against the amendment.

Senator Jacobs then moved to recommit the bill to the Committee, with instruc-

Senator Cantor favored the motion, and made a speech in favor of voting down all the names proposed by Mr. Platt to be added to the list of the great Committee. Senator Chase read a letter from Mr. Erastus Corning, declining to serve as a member of the Committee.

The motion to recommit the bill was lost by a vote of 12 to 17.

Meanwhile sharp Democratic politics had been played in the Assembly, which had been adjourned, on the motion of a Democrat, so that the Senate bill cannot reach it to-day.

The bill may not reach the Governor for a week yet, if indeed it reaches him for two weeks; for now the bill is at the mercy of the politicians, and will be mangled and chewed out of existence.

Senator Ives is now making motions to strike out each of the twenty-two names added by Platt and the Republicans are voting them down one after the other.

Ives says he will keep this up until he is told why these Platt names have been added.

The Republicans' scheme has been apparent and they are getting angry. LATER, 2 P. M .- THE BILL PASSED. The World's Fair bill has just passed

Boss Platt pretends to have discovered an awful Temmany mare's nest in the Committee of One Hundred, and directs his attention to the purification of the Committee. He says that while there are apparently sixty Republicans and forty three Domocrate on the Committee, there are really twelve Mugwumps, and he phints that these latter will help the Tammany's benefit.

Mr. Platt has sent to Albany a list of names of twenty-two gentlemen to add to the lists of the great representative committees.

Mr. Depew speaking of his conference with Fassett and Platt, says: "I told Mr. Platt that I was surprised at his statement that the majority of the incorporators were Tammany Hall men, but that if I could be convinced of it I would at once publicly announce that I had been deceived.

"Democrats and Republicans would agree that the Fair should not be turned over to Tammany Hall, which now controls all the city departments, nor that it should have a preponderating influence in the Board of Exhibition Commissioners. It would not be fair to the country.

"I suggested to Mr. Platt, however, that I was of the opinion that the committee was about equally divided as to party, with a dozen members who set politically about two-thirds of the time with the Republicans and one-third of the time with the Democrats. And all the members are men of established character and integrity, who would not permit the Fair to be used as a political machine.

"I told Mr. Platt that until I was convinced that he was right, and the statistics which I have indicate that he is not, I did not think the exigencies of the case warranted the hazard of injecting more names into the bill, and Mr. Platt left with the understanding that the matter was to be carefully investigated.

"The bill was drawn by Elihu Root, ex-United States District-Attorney, Republican, and ex-Secretary Whitney, Democrat, and Mr. D. P. Brown, Democrat, and Mr. D. P. Brown, Democrat, and Mr. D. P. Brown, Democrat, and it together supervised the bill and approved it, and it has the unanimous indorsement of the Committee on Legislation, among the Committee on Legislation, among the Committeemen being ex-Mayor Hewitt, ex-Gov.
